Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

Each Clymer manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine. This manual covers the Yamaha YFZ450 and YFZ450R built from 2004 to 2017. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box.

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel

YFM660F Grizzly 660 (2002-2008)

Using Lady Morgan's The Wild Irish Girl as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's Castle Rackrent through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

Numerical procedures based on the 2-D and 3-D full potential equations and the 2-D Navier-Stokes equations were developed to study the effects of leading and trailing edge flap motions on the aerodynamics of parallel airfoil-vortex interactions and on the aerodynamics and acoustics of the more general self-generated rotor blade vortex interactions (BVI). For subcritical interactions, the 2-D results indicate that the trailing edge flap can be used to alleviate the impulsive loads experienced by the airfoil. For supercritical interactions, the results show the necessity of using a leading edge flap, rather than a trailing edge flap, to alleviate the interaction. Results for various time dependent flap motions and their effect on the predicted temporal sectional loads, differential pressures, and the free vortex trajectories are presented. For the OLS model rotor, contours of a BVI noise metric were used to quantify the effects of the trailing edge flap on the size and directivity of the high/low intensity noise region(s). Average reductions in the BVI noise levels on the order of 5 dB with moderate power penalties on the order of 18 pct. for a four bladed rotor and 58 pct. for a two bladed rotor were obtained. Hassan, A. A. and Charles, B. D. and Tadghighi, H. and Sankar, L. N. Unspecified Center NASA-CR-4426, NAS 1.26:4426 NAS1-19136; RTOP 505-63-36...

If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages. Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.

Over the past 10 years, researchers have been investigating the expression, regulation, and protective nature of stress proteins (SPs) during and following exercise. Since the expression of SPs have been shown to provide protection to cells and tissues, the importance of understanding their role during exercise cannot be understated. However the terminology, the myriad of stress proteins, and their complex regulation creates a confusing arena in which to enter. Exercise and Stress Response: The Role of Stress Proteins provides an up-to-date review on topics related to exercise and health, giving investigators the necessary background to pursue stress proteins. ABOUT THE EDITORS: Marius Locke, Ph.D. is an Assistant Professor in the Faculty of Physical Education and Health at the University of Toronto in Ontario, Canada. Dr. Locke received a B.A. with honors in Physical Education (1984), a B.Sc. in Biology (1987), and a Ph.D. in Kinesiology from the University of Western Ontario (1992), where he also played varsity football. Dr. Locke was awarded a Natural Science and Engineering Research Council of Canada Post Doctoral Fellowship and studied at the Deborah Research Institute in Browns Mills, New Jersey from 1993-1996. In 1999, Dr. Locke received the American College of Sports Medicine's new investigator award. Dr. Locke is a member of American College of Sports Medicine, the Canadian Society for Exercise Physiology and the Cell Stress Society International. Earl G. Noble, Ph.D. is an Associate Professor in the School of Kinesiology at the University of Western Ontario in London, Ontario, Canada. He received his B.Sc. (1973) and M.Sc. (1975) in Kinesiology from the University of Waterloo and his Ph.D. from Washington State University (1980). Dr. Noble is a member of the Canadian Society for Exercise Physiology, the American College of Sports Medicine and the Cell Stress Society International and the Research Group on Biochemistry of Exercise of the International Council of Sport Science and Physical Education (UNESCO). The overriding theme of his research is to examine muscle plasticity and the manner in which muscle adapts to novel or stressful conditions, especially exercise.
