This book provides a personal perspective on a little known (by me, anyway) part of World War 2 in Asia: the area centered on northern Burma and the Burma Road. It is told from the perspective of a missionary doctor, Gordon Seagrave, who trains local nurses, works with other doctors and military forces, builds local hospitals, and pretty much works amazing feats in healing the sick in the days of war in Burma.

By Gordon S. Seagrave Abstract This book is a compendium of material from Dr. Gordon S. Seagrave's bestselling Burma Surgeon, and Burma Surgeon Returns, including excerpts from his combat diary.224 p.; ill.; 22 c

Account of the rebuilding of the author's hospital in post-war Burma, of his training of Burmese medical personnel, and of his undeserved trial for treason. First published in 1957, this is the account of the rebuilding of the author's hospital in post-war Burma, of his training of Burmese medical personnel, and of his undeserved trial for treason. The book also portrays the social, economic, political and historical aspects of The Union of Burma during her early days of independence. Dr. Gordon S. Seagrave was a famous surgeon who opened his missionary hospital in Namkham, a small town in northern Shan State, from which he established himself as an outstanding surgeon, known all over the world as "Burma Surgeon." His previous bestsellers, Burma Surgeon (1943), Dr. Seagrave's account of his medical mission in the jungle wilds, and the follow-up Burma Surgeon Returns (1946), which tells the story of what happened to him and his hospital unit after the retreat to India, portrayed his 'open-door-policy' to all those patients, rich or poor, who came from every corner of the country. My Hospital in the Hills further cements Dr. Seagrave's reputation as a real life-saver at a time where there were very few skilled surgeons in the early and turmoil days of The Union.

Recent years have offered no more human story than Dr. Seagrave's Burma Surgeon, the account of his medical mission in the jungle wilds and his experiences in the battle of Burma. Now in this new book, he tells what happened to himself and his hospital unit after the retreat with Stilwell. Safe at last in India, survivors of an epic struggle, bereft of home and family, the doctor and his nurses felt that it was the end of all their hard work and dreams; but they had only one thought—to help drive the Japs out of Burma, and some day to see again their home in Namkham. Dr. Seagrave extracted from General Stilwell a promise: that when new action developed against the enemy he would save for them "the meanest, nastiest task of all." Burma Surgeon Returns tells how that promise was kept.

This book is the famous diary account of a Lieutenant-Colonel of the Marine Corps, Dr. Gordon Stifler Seagrave, who served in the armed forces in China, Burma and India, set up a military hospital, and ended up running a triage/surgery unit in World War II as the allies retreated from the Japanese advance. "No document has described the Burma War more vividly."—Times Literary Supplement "Full of the qualities that make one proud of the potentialities of the human spirit."—New York Herald Tribune

United States Army surgeon John H. Grindlay served in the China-Burma-India Theater of World War II in 1941-1944. Drawing on his unpublished war diary and letters, this book sheds new light on the conduct of battlefield medicine in the tropics and provides a new perspective on such personalities as General Joseph W. Stilwell, the famed "Burma Surgeon" Dr. Gordon S. Seagrave, and Chiang Kai-shek. Stilwell's famous 1942 "walkout" retreat from Burma to India is covered, along with the 1943 Allied return to Burma to push the Japanese from the Ledo Road connecting northeast India to southwestern China.

In 1945, US Intelligence officers in Manila discovered that the Japanese had hidden large quantities of gold bullion and other looted treasure in the Philippines. President Truman decided to recover the gold but to keep its riches secret. These would be combined with treasure recovered inside Japan during the US occupation, and with Nazi loot recovered in Europe, to create a worldwide American political action fund to fight communism. Overseen by General MacArthur, President Truman, and John Foster Dulles, this "Black Gold" gave Washington virtually limitless, unaccountable funds, providing an asset base to reinforce the treasuries of America's allies, to bribe political and military leaders, and to manipulate elections in foreign countries for more than fifty years. Drawing on a vast range of original documents and thousands of hours of interviews, Gold Warriors exposes one of the great state secrets of the twentieth century.

Wendy Law-Yone was just fifteen when Burma's military staged a coup and overthrew the civilian government in 1962. The daughter of Ed Law-Yone, the daredevil founder and chief editor of The Nation, Burma's leading postwar English-language newspaper, she experienced firsthand the perils and promises of a newly independent Burma. On the eve of Wendy's studies abroad, Ed Law-Yone was arrested and The Nation shut down. Wendy herself was briefly imprisoned. After his release, Ed fled to Thailand with his family, where he formed a government-in-exile and tried, unsuccessfully, to foment a revolution. Exiled to America with his wife and children, Ed never gave up hope that Burma would one day adopt a new democratic government. Though he died disappointed, he left in his daughter's care an illuminating trove of papers documenting the experiences of an eccentric, ambitious, humorous, and determined patriot, vividly recounting the realities of colonial rule, Japanese occupation, postwar reconstruction, and military dictatorship. This memoir tells the twin histories of Law-Yone's kin and his country, a nation whose vicissitudes continue to intrigue the world.
