Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of "the Brotherhood", and retreating amid violence and confusion to the basement lair of the Invisible Man he imagines himself to be. The book is a passionate and witty tour de force of style, strongly influenced by T.S. Eliot's *The Waste Land*, Joyce, and Dostoevsky.

Lenora Stone used to say if she didn't have bad luck, she wouldn't have any luck at all. At age thirty-eight, instead of socializing with Baltimore's A-list, she photographs them for Baltimore Scene, a glossy magazine filled with beautiful people who, unlike Lenora, never have to worry about car trouble and overdue bills. As much as she'd love to slam the door on her overbearing boss, quitting isn't an option. She's barely making her mortgage payments and, though her condo might not be a palace, it's hers. Lately even things with her boyfriend Gerald haven't been right. They've been together for three years but he can't seem to ask the one question she's been waiting for. But what Lenora doesn't know is that her luck is about to change... Just when she thinks things can't get worse, Lenora wins the jackpot in the Maryland lottery. In a heartbeat, all her dreams become possible. She quits her job and indulges her every desire-starting with a shiny, silver BMW and a million-dollar mansion. Gerald is finally ready to put a ring on her finger and the city's most exclusive women's group is dying for her to join, officially moving Lenora from behind the lens, into the limelight. But in Lenora's lavish new world, all that glitters definitely isn't gold. Her old friend's are concerned about her sudden changes, and Ray, a sexy, young landscaper Lenora covered for

As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today ' s rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, iGen spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they

behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world.

Examining how the Wengers have cautiously and incrementally adapted to the changes swirling around them, this book offers an invaluable case study of a traditional group caught in the throes of a postmodern world."--Jacket.
