The Discarded Image The peculiarity of the Middle Ages can be shown by two examples. Some time between 1160 and 1207 an English priest called La3amon wrote a poem called the Brut. 1 In it (ll. 15,775 sq.) he tells us that the air is inhabited by a great many beings, some good and some bad, who will live there till the world ends. The content of ...

~~The Discarded Image: An Introduction to Medieval and...~~

Lewis literally presents a "discarded image" or world view, that of medieval and early renaissance Europe. There is much reference to the organization of the universe, of the earth, and the search of coherence between the two. The book is a fascinating incursion into both the topic and into Lewis' vision of this period of human history.

Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

New collection of literary-critical essays and reviews of C. S. Lewis, including previously unpublished and long-unavailable works.

Since its publication in 1942, C.S. Lewis's *A Preface to Paradise Lost* has remained and continues to remain an indispensable introductory book for the study of *Paradise Lost*. Very briefly, but with remarkable clarity and precision, Lewis touches on all the important aspects of *Paradise Lost*: form and technique, structure and texture, theological disputes and characterization etc. Lewis believes that a poem is a public activity through which the poet intends to move his readers. It is, therefore, extremely important to know the intention of the poet, to know what the poem is, what it was intended to do and how it is meant to be used. Accordingly, Lewis tries to identify the originally intended meaning of the poem in order to help the reader to have an access to Milton's intentions. In the process, the Elizabethan world order, the contemporary theological issues, the differences between *De Doctrina* and *Paradise Lost*, critical opinions on Milton's style, diction and characterizations particularly Satan, Eve, the angels and Satan's followers, are all brought to bear on his discussions in the preface. The book is a must for any student of *Paradise Lost*.

For over half a century, scholars have laboured to show that C. S. Lewis's famed but apparently disorganised *Chronicles of Narnia* have an underlying symbolic coherence, pointing to such possible unifying themes as the seven sacraments, the seven deadly sins, and the seven books of Spenser's *Faerie Queene*. None of these explanations has won general acceptance and the structure of Narnia's symbolism has remained a mystery. Michael Ward has finally solved the enigma. In *Planet Narnia* he demonstrates that medieval cosmology, a subject which fascinated Lewis throughout his life, provides the imaginative key to the seven novels. Drawing on the whole range of Lewis's writings (including previously unpublished drafts of the *Chronicles*), Ward reveals how the Narnia stories were designed to express the characteristics of the seven medieval planets - - Jupiter, Mars, Sol, Luna, Mercury, Venus, and Saturn - - planets which Lewis described as "spiritual symbols of permanent value" and "especially worthwhile in our own generation". Using these seven symbols, Lewis secretly constructed the *Chronicles* so that in each book the plot-line, the ornamental details, and, most important, the portrayal of the Christ-figure of Aslan, all serve to communicate the governing planetary personality. The cosmological theme of each *Chronicle* is what Lewis called 'the kappa element in romance', the atmospheric essence of a story, everywhere present but nowhere explicit. The reader inhabits this atmosphere and thus imaginatively gains a deeper knowledge of the spiritual character which the tale was created to embody. *Planet Narnia* is a groundbreaking study that will provoke a major reevaluation not only of the *Chronicles*, but of Lewis's whole literary and theological outlook. Ward uncovers a much subtler writer and thinker than has previously been recognized, whose central interests were hiddenness, immanence, and knowledge by acquaintance.

C.S. Lewis' Narnia books have delighted millions of readers with their captivating otherworld. In this compelling book, Lewis scholar Michael Ward reveals deeper layers of meaning encrypted in the Narnia series, drawing on medieval cosmology and symbolism. - Koorong The Narnia books are mysterious. Millions of people have been captivated by them, but are left with unanswered questions. Why are there seven books? Are they biblical allegories? If so, why do four of them seem to have no biblical basis? Why do they lack uniformity? Why does Father Christmas appear in them? In *The Narnia Code* Michael Ward attempts to answer this puzzle. Drawing on Lewis' love of medieval astronomy, Ward breaks the Narnia 'code' and demonstrates the single theme that provides the link between all seven books. The author takes us through each of the seven *Chronicles of Narnia* and draws from the whole range of Lewis' other works to reveal the secret. Based on a groundbreaking scholarly work (*Planet Narnia*, OUP) that entered the Sunday Times best seller list, this fascinating book will cause the reader to understand Lewis in a whole new way. It has some important things to say about how we understand the universe and Christian faith today. Documentary DVD also available. # 313627

This book was compiled by Alastair Fowler from notes left by C. S. Lewis at his death. It is Lewis's longest piece of literary criticism, as distinct from literary history. It approaches *The Faerie Queene* as a majestic pageant of the universe and nature, celebrating God as 'the glad creator', and argues that conventional views of epic and allegory must be modified if the poem is to be fully enjoyed and understood.
