History of Honey Bees in the United Kingdom. The article below is based on a lecture given by Philip Denwood to the SICAMM Conference in Landquart, Switzerland, on 1st September 2012. Articles by Dr. Dorian Pritchard, 1 and by Norman Carreck 2 of the Laboratory of Social Insects at Sussex, have presented the evidence, convincing in my opinion, for the immigration of the honey bee into mainland Britain across the land bridge from Europe at least 9000 years ago, and its continued existence ...

~~History of Honey Bees in the United Kingdom~~

In the U.K. practical beekeeping was led in the early 20th century by a few men, pre-eminently Brother Adam and his Buckfast bee and R.O.B. Manley, author of many titles, including 'Honey Production In The British Isles' and inventor of the Manley frame, still universally popular in the U.K. Other notable British pioneers include William Herrod-Hempsall and Gale.

overturned pots and were made from either baked clay or woven straw. A small hole near the bottom of the skep allowed the bees to come and go, and the comb was laid down inside.

~~The History of Beekeeping~~

~~The History of Beekeeping ...~~

Beekeeping (or apiculture) is the maintenance of bee colonies, commonly in man-made hives, by humans. Most such bees are honey bees in the genus *Apis*, but other honey-producing bees such as *Melipona* stingless bees are also kept. A beekeeper (or apiarist) keeps bees in order to collect their honey and other products that the hive produce (including beeswax, propolis, flower pollen, bee pollen ...
