Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. This fresher guide is designed for students who took accounting in their freshman year but struggled with double-entry bookkeeping or have forgotten it and need a quick revision of key accounting adjustments such as accrued expenses, prepaid expenses, bad debt expense, depreciation techniques, inventory valuation, and unearned revenue. The author also discusses the preparation and interpretation of financial statements including the income statement, statement of retained earnings, balance sheet, and cash flow statement. Corporate accounting is introduced, especially the impact of tax, dividends, and the changes to the income statement, statement of retained earnings, and balance sheet. The book is packed with worked examples and four comprehensive case studies that apply the aforementioned accounting concepts. After working through this text, the student should be better prepared for
