These are a few of the words that come to mind when I think about how we use gardens to teach and grow love in kids. I've written before about the importance of allowing children time outside to develop empathy for and a connection to nature. Watching and caring for a delicate plant as it grows from seed to harvest instills in kids a sense of empathy and compassion, of the interconnectedness of nature and their responsibility (as a part of it) to care of it.

Gardens can be a great place to cultivate a meaningful and fun learning experience for children. It's a natural match. Gardening can offer children an opportunity to learn the life cycle process, by which plants are grown, as well as responsibility, caretaking, independence, and environmental awareness. Introducing children to gardening is a great way to increase their awareness of where food comes from and the importance of the environment in everyday life.

### Kids Gardening: Tips, Ideas and Projects | Planet Natural

"Let's Grow a Garden" is a wonderful book, and increasingly hard to find. (I have given three copies as presents to friends and associates involved in farming or gardening activities and expect to keep up the custom.) The pictures are appealing, the theme is great--and the diversity of the little faces is, for me, the book's greatest distinction.

In this colorful guide featuring 30 easy gardening projects, kids will learn to grow their own fruits and vegetables, attract wildlife such as butterflies and bees, and recycle household items into animal habitats and fun decorations. Whether they've got a big backyard or just a windowsill, kids can grow all sorts of plants with this beginner's gardening book. Packed with step-by-step activities, this book teaches children ages 5-8 how to grow garden staples like tomatoes, pumpkins, and zucchini with photographic examples. Each project includes a complete materials list, planting guide, and tips on harvesting your fruits and vegetables, providing plenty of support for kids from start to finish. The book also offers advice on creating creature-friendly spaces within your garden, such as a bee hotel, a ladybug sanctuary, and a home for frogs and toads. By caring for the wildlife around them, kids can grow to better understand the relationship between humans and nature, and how we can support local habitats wherever we happen to live. Beyond the gardening basics, Let's Get Gardening also helps kids learn about conservation, recycling, and sustainability through simple, hands-on projects. From making mini greenhouses out of leftover glass jars, to growing strawberries in an old pair of rain boots, to repurposing an empty milk carton as a hanging bird feeder, there are so many practical ways for kids to help cut waste and reduce pollution. So grab your potting soil and let's get gardening!
