Henry Kissinger: Toward a US-China  
'Community' ~~On China Henry  
Kissinger~~

On China is a 2011 non-fiction book by Henry Kissinger, former United States Secretary of State. Kissinger, one of the most famous diplomats of the 20th century, is well known for the role he played in Sino-American relations during the Nixon administration, particularly the Nixon's 1972 visit to China. Thus, his book focuses on

## ~~On China - Wikipedia~~

In his book 'On China', Kissinger presents his own understanding of China and demonstrates the importance of this country's cultural framework when it comes to its leadership and foreign policy. It is a highly detailed book on his work in China as a diplomat of the US government so if you are looking for information on how US-China relations developed during his term in the government it is an invaluable source.

In *On China*, Kissinger describes what he calls the "triangulation" between China, the US, and the USSR.

Kissinger tells us that Chinese leaders, starting with Mao Zedong, skillfully played the Americans and Russians off against each other, bolstering China's relatively weak position and enabling it to behave as a third Superpower. This account is the most significant element in *On China*, though Kissinger gives us more.

Henry Kissinger writes about the country he has known intimately for decades & whose relations with the West he helped shape. Drawing on historical records as well as his conversations with Chinese leaders, Kissinger examines how China has approached diplomacy, strategy, & negotiation throughout its history.

For more than twenty years after the Communist Revolution in 1949, China and most of the western world had no diplomats in each others' capitals and no direct way to communicate. Then, in July 1971, Henry Kissinger arrived secretly in Beijing on a mission which quickly led to the reopening of relations between China and the West

## Download File PDF On China Henry Kissinger

and changed the course of post-war history. For the past forty years, Kissinger has maintained close relations with successive generations of Chinese leaders, and has probably been more intimately connected with China at the highest level than any other western figure. This book distils his unique experience and long study of the 'Middle Kingdom', examining China's history from the classical era to the present day, and explaining why it has taken the extraordinary course that it has. The book concentrates on the decades since 1949, presenting brilliantly drawn portraits of Mao Zedong, Zhou Enlai, Deng Xiaoping and other Chinese leaders, and reproducing verbatim Kissinger's conversations with each of them. But Kissinger's eye rarely leaves the long continuum of Chinese history: he

## Download File PDF On China Henry Kissinger

describes the essence of China's approach to diplomacy, strategy and negotiation, and the remarkable ways in which Communist-era statesmen have drawn on methods honed over millennia. At the end of the book, Kissinger reflects on these attitudes for our own era of economic interdependence and an uncertain future. On China is written with great authority, complete accessibility and with many wider reflections on statecraft and diplomacy distilled from years of experience. At a moment when the rest of the world is thinking about China more than ever before, this timely book offers insights that no other can.

In July 1971, US National Security Advisor, Henry Kissinger, made a secret visit to China to meet top

## Download File PDF On China Henry Kissinger

Chinese leaders. This inaugurated a new phase not just in US-China relations but in contemporary history. That visit and the subsequent US-China relationship, including the US decision to invest in China's economic rise and admit it into the WTO, combined to firm up the foundations of China's rise as a world power. For more than four decades, the leadership of the two countries had a secretive pact, which worked well to each other's benefit. The US helped power China's economic growth in the hope that Beijing would turn a new political leaf and adopt Western practices (e.g. democracy). China grew economically and militarily, used its financial prowess to spread its influence across continents, as four generations of Chinese leaders built their nation at the expense of the US.

## Download File PDF On China Henry Kissinger

Half a century after Kissinger's historic visit, the US and China are today engaged in a trade war bordering on a new Cold War. Washington is not openly talking about 'de-coupling' from China, which has begun to challenge its global dominance, but it might very well be. China has already established itself as a dominant power across Eurasia. More worryingly, China is militarily and economically threatening its neighbours, including Japan, Korea, Vietnam, Taiwan, Australia, Philippines, Indonesia and India. This collection of critical essays examines the impact, consequences and legacy of Kissinger's first, door-opening visit to China and how it has shaped world order.

“Dazzling and instructive . . . [a] magisterial new book.” —Walter

Isaacson, Time "An astute analysis that illuminates many of today's critical international issues." —Kirkus Reviews  
Henry Kissinger offers in *World Order* a deep meditation on the roots of international harmony and global disorder. Drawing on his experience as one of the foremost statesmen of the modern era—advising presidents, traveling the world, observing and shaping the central foreign policy events of recent decades—Kissinger now reveals his analysis of the ultimate challenge for the twenty-first century: how to build a shared international order in a world of divergent historical perspectives, violent conflict, proliferating technology, and ideological extremism. There has never been a true “world order,” Kissinger observes. For most of history, civilizations defined their

## Download File PDF On China Henry Kissinger

own concepts of order. Each considered itself the center of the world and envisioned its distinct principles as universally relevant. China conceived of a global cultural hierarchy with the emperor at its pinnacle. In Europe, Rome imagined itself surrounded by barbarians; when Rome fragmented, European peoples refined a concept of an equilibrium of sovereign states and sought to export it across the world. Islam, in its early centuries, considered itself the world's sole legitimate political unit, destined to expand indefinitely until the world was brought into harmony by religious principles. The United States was born of a conviction about the universal applicability of democracy—a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical

## Download File PDF On China Henry Kissinger

concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as national security advisor and secretary of state, *World Order* guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavík. He offers compelling insights into the future of U.S.–China relations and the evolution

# Download File PDF On China Henry Kissinger

of the European Union, and he examines lessons of the conflicts in Iraq and Afghanistan. Taking readers from his analysis of nuclear negotiations with Iran through the West's response to the Arab Spring and tensions with Russia over Ukraine, *World Order* anchors Kissinger's historical analysis in the decisive events of our time. Provocative and articulate, blending historical insight with geopolitical prognostication, *World Order* is a unique work that could come only from a lifelong policy maker and diplomat. Kissinger is also the author of *On China*.

[Henry Kissinger and American Power] effectively separates the man from the myths." —The Christian Science Monitor | Best books of August 2020

## Download File PDF On China Henry Kissinger

The definitive biography of Henry Kissinger—at least for those who neither revere nor revile him. Over the past six decades, Henry Kissinger has been America's most consistently praised—and reviled—public figure. He was hailed as a “miracle worker” for his peacemaking in the Middle East, pursuit of détente with the Soviet Union, negotiation of an end to the Vietnam War, and secret plan to open the United States to China. He was assailed from the left and from the right for his indifference to human rights, complicity in the pointless sacrifice of American and Vietnamese lives, and reliance on deception and intrigue. Was he a brilliant master strategist—“the 20th century's greatest 19th century statesman”—or a cold-blooded monster who eroded America's moral standing for the sake

## Download File PDF On China Henry Kissinger

of self-promotion? In this masterfully researched biography, the renowned diplomatic historian Thomas Schwartz offers an authoritative, and fair-minded, answer to this question. While other biographers have engaged in hagiography or demonology, Schwartz takes a measured view of his subject. He recognizes Kissinger's successes and acknowledges that Kissinger thought seriously and with great insight about the foreign policy issues of his time, while also recognizing his failures, his penchant for backbiting, and his reliance on ingratiating and fawning praise of the president as a source of power. Throughout, Schwartz stresses Kissinger's artful invention of himself as a celebrity diplomat and his domination of the medium of television news. He also notes Kissinger's sensitivity to

domestic and partisan politics, complicating—and undermining—the image of the far-seeing statesman who stands above the squabbles of popular strife. Rounded and textured, and rich with new insights into key dilemmas of American power, *Henry Kissinger and American Power* stands as an essential guide to a man whose legacy is as complex as the last sixty years of US history itself.

A new portrait of Henry Kissinger focusing on the fundamental ideas underlying his policies: Realism, balance of power, and national interest. Few public officials have provoked such intense controversy as Henry Kissinger. During his time in the Nixon and Ford administrations, he

## Download File PDF On China Henry Kissinger

came to be admired and hated in equal measure. Notoriously, he believed that foreign affairs ought to be based primarily on the power relationships of a situation, not simply on ethics. He went so far as to argue that under certain circumstances America had to protect its national interests even if that meant repressing other countries' attempts at democracy. For this reason, many today on both the right and left dismiss him as a latter-day Machiavelli, ignoring the breadth and complexity of his thought. With *The Inevitability of Tragedy*, Barry Gewen corrects this shallow view, presenting the fascinating story of Kissinger's development as both a strategist and an intellectual and examining his unique role in government through his ideas. It analyzes his contentious

## Download File PDF On China Henry Kissinger

policies in Vietnam and Chile, guided by a fresh understanding of his definition of Realism, the belief that world politics is based on an inevitable, tragic competition for power. Crucially, Gewen places Kissinger's pessimistic thought in a European context. He considers how Kissinger was deeply impacted by his experience as a refugee from Nazi Germany, and explores the links between his notions of power and those of his mentor, Hans Morgenthau—the father of Realism—as well as those of two other German-Jewish émigrés who shared his concerns about the weaknesses of democracy: Leo Strauss and Hannah Arendt. *The Inevitability of Tragedy* offers a thoughtful perspective on the origins of Kissinger's sober worldview and argues that a reconsideration of

presidents have tried and failed. Martin Indyk—a former United States ambassador to Israel and special envoy for the Israeli-Palestinian negotiations in 2013—has experienced these political frustrations and disappointments firsthand. Now, in an attempt to understand the arc of American diplomatic influence in the Middle East, he returns to the origins of American-led peace efforts and to the man who created the Middle East peace process—Henry Kissinger. Based on newly available documents from American and Israeli archives, extensive interviews with Kissinger, and Indyk's own interactions with some of the main players, the author takes readers inside the negotiations. Here is a roster of larger-than-life characters—Anwar Sadat, Golda Meir, Moshe Dayan, Yitzhak Rabin, Hafez al-

## Download File PDF On China Henry Kissinger

Assad, and Kissinger himself. Indyk's account is both that of a historian poring over the records of these events, as well as an inside player seeking to glean lessons for Middle East peacemaking. He makes clear that understanding Kissinger's design for Middle East peacemaking is key to comprehending how to—and how not to—make peace.

Henry Kissinger: Pragmatic Statesman in Hostile Times explores the influence of statesman Henry Kissinger in American foreign relations and national security during 1969 to 1977. Henry Kissinger arrived in the U.S. as a young Jewish refugee and went on to serve as National Security Advisor and Secretary of State to Presidents Nixon and Ford. The consulting firm he founded has advised every U.S.

## Download File PDF On China Henry Kissinger

president since. In this book, Abraham R. Wagner reveals how Kissinger used his knowledge of history and international relations to advocate a realpolitik approach to U.S. foreign policy. Through seven selected primary source documents, Wagner tracks how Kissinger became an iconic figure in international relations that polarized opinion during 1969 to 1977, a critical and controversial period of American history. This book will be useful for students interested in American history and security studies, especially those with an interest in U.S. international relations during the latter years of the war in Vietnam.

Kissinger's six leaders are Konrad Adenauer, Charles de Gaulle, Richard Nixon, Anwar Sadat, Lee Kuan Yew, and Margaret Thatcher. All of them

# Download File PDF On China Henry Kissinger

were formed in a period when established institutions collapsed all over Europe, colonial structures gave way to independent states in Asia and Africa, and a new international order had to be created from the vestiges of the old. Kissinger penetratingly analyses each of these leaders' careers through the highly individual strategies of statecraft which he presents them as embodying, to show how it is the combination of character and circumstance which creates history. Kissinger's public experience, personal knowledge and historical perceptions enrich the book with insights and judgements such as only he could make.
