The four-year course, of which Part III is the final component, is designed for students who wish to pursue a professional career in physics, (in academic or industrial research). It leads to an honours degree of Master of Natural Sciences, M.Sci., together with a B.A., though the latter cannot be conferred until the end of the fourth year.

---

Course Overview : Part III — Department of Physics

The Physics takes its title from the Greek word physis, which translates more accurately as "the order of nature." The first two books of the Physics are Aristotle's general introduction to the study of nature. The remaining six books treat physics itself at a very theoretical, generalized level, culminating in a discussion of God, the First Cause.

---

Aristotle (384–322 B.C.): Physics: Books I to IV | SparkNotes

Physics (from Ancient Greek: φυσική (ἐπιστήμη), romanized: physikḗ (epistḗmḗ), lit. 'knowledge of nature', from φυσική φύσις 'nature') is the natural science that studies matter, its motion and behavior through space and time, and the related entities of energy and force. Physics is one of the most fundamental scientific disciplines, and its main goal is to understand ...

---

Physics - Wikipedia

Physics B also introduces scientific programming, using the C/C++ language. The mathematical level of the Physics B course is more consistently demanding than that of Physics A, reflecting the fact that the majority of students taking the subject will proceed to Part II/III Experimental and Theoretical Physics and other quantitative subjects.
