We evaluated effectiveness of personal protective measures against severe acute respiratory disease coronavirus 2 (SARS-CoV-2) infection. Our case-control study included 211 cases of coronavirus disease (COVID-19) and 839 controls in Thailand. Cases were defined as asymptomatic contacts of COVID-19 patients who later tested positive for SARS-CoV-2; controls were asymptomatic contacts who never ...

Respiratory Disease A Case Study Approach To Patient Care

Cloth masks have been used in healthcare and community settings to protect the wearer from respiratory infections. The use of cloth masks during the coronavirus disease (COVID-19) pandemic is under debate. The filtration effectiveness of cloth masks is generally lower than that of medical masks and respirators; however, cloth masks may provide some protection if well designed and used correctly.

Effectiveness of Cloth Masks for Protection Against Severe ...

Cardiovascular and respiratory disease. Cardiovascular and respiratory diseases are the leading causes of premature death worldwide; in the UK alone, 1 in 4 of us will die from heart disease and 1 in 5 from lung disease. Half of all deaths from heart disease are sudden and unexpected. In this theme, we will focus on how we can:
