The Queens Conjuror Science And
The Queen's Conjuror is a fair, scholarly, historically accurate biography of John Dee, making him neither a mysterious wizard nor a madman. He was questing for truth in a day when the consensus opinion was warped and fearful and religious authorities had squelched most scientific investigation.

"The Queen's Conjuror" by Benjamin Wolley is a hypnotic account of Dr. John Dee, the 16th-Century mapmaker, mathematician, venture capitalist, cryptanalyst, astrologer, alchemist and all-around international man of mystery. Wolley, in a masterful work of scholarship, has written a detailed, engrossing biography of a most remarkable man.

The fascinating and often overlooked life of John Dee, a scientist and trusted advisor to Queen Elizabeth I resurrects one of the most colorful and interesting Renaissance men. Reprint. 15,000 first printing.

Dee was one of the most influential philosophers of the Elizabethan Age. A close confidant of Queen Elizabeth, he helped to introduce mathematics to England, promoted the idea of maths as the basis of science, anticipated the invention of the telescope, charted the New World, and created one of the most magnificent libraries in Europe. At the height of his fame, Dee was poised to become one of the greats of the Renaissance. Yet he died in poverty and obscurity - his crime was to dabble in magic .

Outlandish alchemist and magician, political intelligencer, apocalyptic prophet, and converser with angels, John Dee (1527-1609) was one of the most colorful and controversial figures of the Tudor world. In this fascinating book--the first full-length biography of Dee based on primary historical sources--Glyn Parry explores Dee's vast array of political, magical, and scientific writings and finds that they cast significant new light on policy struggles in the Elizabethan court, conservative attacks on magic, and Europe's religious wars. John Dee was more than just a fringe magus, Parry shows: he was a major figure of the Reformation and Renaissance.

A spellbinding portrait of Queen Elizabeth's conjuror - the great philosopher, scientist and magician, Dr John Dee (1527-1608) and a history of Renaissance science that could well be the next 'Longitude'.

The year is 1584. The alchemist John Dee has turned to forbidden magic. In partnership with a visionary rogue, an ex-nun and a court beauty, he's fled across Europe, dogged by the Inquisition and a relentless assassin. Finally, Dee's magic seems to yield fruit. Angels (or are they demons?) promise to reveal the secret of transmuting lead into gold. There is only one hitch: Dee and his companions must first commit an unforgivable sin. Based on real-life diaries and historical accounts, Sorcerer recreates a world of death, sex and politics where everyone believes that both that magic is real and that otherworldly beings can be summoned at will. "A cinematic blend of history and magic." - David Rotman, producer of DragonHeart and Cliffhanger "An entertaining story." -Benjamin Woolley, author of The Queen's Conjuror "An intricate tapestry of the historical and the alchemical that casts an authentic spell over the reader. A vivid tale vigorously told, it may bring visions upon you " - Ramsey Campbell, Lifetime President, British Fantasy Society

First published in 1987. Routledge is an imprint of Taylor & Francis, an informa company.

John Dee was more than just a fringe magus, Parry shows: he was a major figure of the Reformation and Renaissance.

Vincent, the youngest son of King Edouard and Queen Celli, has been hiding a dark secret; he has wizard powers. For political reasons, having a wizard in the royal family is a cause for concern in the kingdom and Vincent fears the consequences should his powers be discovered. But the inevitable happens and his stepfather Kieran sees Vincent manifesting an unusual power. Vincent is immediately sent to the Wizards Hall on Bright Isle to be trained. Once there, he suffers resentment and abuse, but not just from his classmates. He is also feared by many of the royal wizards living on the island, who believe that he will prove to be a rogue, just like Kieran is still reputed to be, because of his unprecedented abilities. With only a few friends for support, Vincent does his best in a difficult situation, but his biggest fear still remains. As a wizard, will he be allowed to remain a member of the royal family?

A mysterious library book opens the door to a world of magic and danger in the first book in the beloved Young Wizards series. Bullied by her classmates, Nita Callahan is miserable at school. So when she finds a mysterious book in the library that promises her the chance to become a wizard, she jumps at the opportunity to escape her unhappy reality. But taking the Wizard's Oath is no easy thing, and Nita soon finds herself paired with fellow wizard-in-training Kit Rodriguez on a dangerous mission. The only way to become a full wizard is to face the Lone Power, the being that created death and is the mortal enemy of all wizards. As Nita and Kit battle their way through a deadly alternate version of New York controlled by the Lone Power, they must rely on each other and their newfound wizarding skills to survive--and save the world from the Lone One's grasp.
