Race, the idea that the human species is divided into distinct groups on the basis of inherited physical and behavioral differences. Genetic studies in the late 20th century refuted the existence of biogenetically distinct races, and scholars now argue that ‘ races ’ are cultural interventions stemming from colonialism.

race | Definition, Ideologies, Constructions, & Facts ...

A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. The term was first used to refer to speakers of a common language and then to denote national affiliations. By the 17th century the term began to refer to physical (phenotypical) traits.

Race (human categorization) - Wikipedia

The definition of race has not been consistent throughout history, nor is it consistent today, based on people ’ s beliefs. But generally speaking, many people today think of a race as a group of people having certain physical characteristics. And the most distinguishing physical characteristic has
